# FAUCET MATERIAL SPECIFICATION MASTER LIST

## SEAT CUP

## BODY

Brass - Meets JCBA technical standard T204 and Alloy C6802 or ASTM B371/CDA Alloy UNS-C69300 or ASTM B249/CDA Alloy UNS-C49260 specifications.

Stainless Steel - Type 304, UNS-S30400 and/or 304L, UNS-S30403. Meets SAE Standard J405 and ASTM Standard A314 specifications.

- Type 304, UNS-S30400 and/or 304L, UNS-S30403 meets ASTM Standard A351-CF8 specifications.

## BONNET

SHANK

Brass - Meets JCBA Technical Standard T204 and Alloy C6802 or UNS-C69300 specifications.

Stainless Steel - Type 304, UNS-S30400 meets ASTM Standard A351-CF8 specifications.

STEM

HANDLE

Phenolic - Meets ASTM D5948 specifications

Stainless Steel - Stainless Steel Casting. Types 304, UNS-S30400 and/or 304L, UNS-S30403 meets ASTM Standard A351-CF8 specifications.

SPRING

Stainless Steel - Meets ASTM Standard A313 UNS-S31600 specifications.

  - Meets ASTM Standard A313 UNS-S30200 specifications.
SPRING

Stainless Steel - Meets ASTM Standard A313 UNS-S31600 specifications.
   - Meets ASTM Standard A313 UNS-S30200 specifications.

SHIELD

Polycarbonate - Meets ASTM Standard D3935 specifications

GAUGE FITTINGS

   - JCBA technical standard T204 and Alloy C6802 specifications.

Teflon - FDA Grade. Meets ASTM Standard D1457 and/or D1710 specifications.

WASHER/O-RING/SEAL

Stainless Steel - Meets type 304-2B Coil, UNS-S30400.

Aluminum - Type 1100-0, meets ASTM Standard B209 UNS-A91100 specifications.

Plastic - Acetal (ASTM D4181), Nylon (ASTM D4066), Polyethylene (ASTM D4976) and Polypropylene (ASTM D4101). All FDA Grade materials.
PAGE 4 – FAUCET MATERIAL SPECIFICATION MASTER LIST (Cont’d.)

SPOUT

Stainless Steel - Meets ASTM Standards A213 and/or A269 UNS-S30400 specifications.

NUTS

Stainless Steel - Type 303, UNS-S30300. Meets ASTM Standard A582 specifications.

PLATING

Nickel - Meets ASTM Standard B689 QQ-N-290 Classifications, Type 2, Class 5 specifications.
