- Custom hot stamp logos available

tomlinson®

Chef's Edge® Surfaces

Premium commercial brand of hygienic cutting boards and food preparation surfaces resists heat up to 185°F. Dishwasher safe, and available in Premium White and Color ID Series. NSF listed; NSF seal can be embossed on board. Made of non-absorbent, high-density extruded polyethylene.

- Available with Microban® Anti-Microbial Product Protection to inhibit the growth of the bacteria, mold, and mildew
- Easy on knives, non-skid finish
- Won't chip, crack, or warp
- Available with rounded corners and juice grooves
- Available with non-skid feet (not available on boards with Microban)

Chef's Edge® Premium Full Sheets

Item #	Description	Case Pack
1933003	48" x 96" x 1/2"	each
1933013	48" x 120" x 1/2"	each
1933033	60" x 120" x 1/2"	each

Full sheets also available in 3/8", 5/8", 3/4" and 1" thicknesses. Colored full sheet available in 1/2" thickness.

MICROBAN is a registered trademark of Microban Products Company.

Richlite® Heat-Resistant Surfaces

Richlite surfaces are made of resin-impregnated wood fiber. Heat resistant up to 200°F for 30 minutes in an oven or indefinitely under heat lamps. Can hold hot pots, fry baskets, and skillets (up to 350°F) while cooling.

- Ideal for cutting boards, pizza serving, and prep surfaces, and for equipment applications such as steam tables, griddle stands, bread warmers, under heat lamps, or carving boards
- Low absorbency – won't transfer odors
- Dense surface protects knives, helps resist dulling
- Stain resistant even to food coloring and spices
- Dishwasher safe – won't warp
