

Tomlinson Industries' No-Drip® Faucets Are NSF/ANSI Standard 169 AB1953 Compliant

Tomlinson Industries' No-Drip® Faucets are NSF/ANSI Standard 169 AB1953 Compliant. This means that these products were evaluated and determined to possess a weighted average lead content of less than 0.25% and are in compliance with California's Health and Safety Code 116875 (commonly known as AB1953) and Vermont Act 193. For a complete list of Tomlinson's certified faucets, go to: www.nsf.org/business/search_listings/
