## Forest Service Pledges Largest Timber Harvest in 20 Years

In a victory for NAHB, Interim Forest Service Chief Victoria Christiansen told Congress last week that the Forest Service expects its 2018 timber harvest will be the biggest in 20 years.

on Canada to meet roughly one-third of its lumber needs.

Since January of last year, rising lumber prices have increased the cost of an average single-family home by nearly \$9,000. Much of these unprecedented price hikes are due to the lumber tariffs.

Testifying last Wednesday before Senate Committee on Energy and Natural Resources, Christiansen said: "Our anticipated level of timber harvest in fiscal 2018 is the highest it's been in 20 years. In all, this year the Forest Service plans to

NAHB has been leading the charge to urge Congress and the Trump administration to consider ways to increase the domestic supply of timber of public lands.

These efforts are especially critical, given that the Commerce Department has placed tariffs averaging more than 20% on Canadian lumber shipments into the U.S. and that the U.S. relies

## From the Executive Director

Members and Friends:

From all accounts, it appears our recent Medina County Spring Parade of Homes, showcasing 17 homes, built by 15 builder members, with a new development in Hinckley, was a resounding success. Hopefully in the near future, we can share some actual numbers with you but all builders have indicated traffic was excellent, leads are strong, and they all anticipate a great building season.

I want to once again recognize our incredible Parade sponsors and their support of this event. They are: **Carter Lumber** (major sponsor), **84 Lumber**, **All Construction Services**, **Clement Construction, Inc.**, **Fifth Third Bank**, **Kingdom Title Solutions**, **Paramount Plumbing**, **Sundance LTD**, **Third Federal Savings & Loan**, **Transfer Title Agency, Inc.**, and **Wolff Brothers Supply, Inc.**

Thank you to these companies and to the Parade builders. You are utilizing your membership and opportunities to the fullest and we expect this event to be a win/win for all involved.

Be sure to attend our upcoming annual Golf Event. It's always one of the best (and most fun) builder get-togethers available for our members.

Respectfully:

Dave LeHotan

## Staying Alive to Run Again

That is what the winners of the primary election now face. The biggest difference is they now face an opponent from the rival party. In many of the primary races, it did not appear the campaigning was against a friend but a foe. But that is politics today. The end goal is to get elected.

With term limits, we saw many contested races, both Democrat and Republican. We now will try to determine just what motivates and is important to the November challengers. Every state office will be occupied by a new officeholder. While the balance of the state legislature will not likely change a lot, many new faces will be in both chambers. Of note, a new House speaker will be elected to serve out the remaining year. The former Speaker resigned in the face of an FBI investigation. The story does not stop there.

Competition to replace him found funding and recruitment of candidates initiated by two hopefuls. The campaigns were not genteel. It seems some bad blood was created which will taint all future activity. That activity has already begun. According to House rules, session may only be called by the Speaker; remember, the Speaker resigned. So, a new speaker must be elected by the Full House. That requires 50 votes. As I write this neither candidate has 50 votes from the majority caucus. According to some well-placed rumors, a successful candidate may ask some minority members for support.

Just watching history in the making. Now just figuring out how to get HB 371 to the floor amidst all this.

*(Cover Story – Continued from page 1)*

sell 3.4 billion board feet of timber while improving the resiliency and health of more than 3 million acres of National Forest System lands through removal of hazardous fuels and stand treatments.”

Christiansen said a major reason why timber harvests are on a pace to run 30% ahead of last year's levels is because of expanded forest management authority in the 2018 omnibus spending bill passed into law last December.

NAHB strongly supported these

provisions in the omnibus bill and continues to work on all fronts to find solutions that will ensure a lasting and stable supply of lumber imports into the U.S. at a competitive price.

You can help make a difference: Click on this link (<http://www.capitolconnect.com/builderlink/>) to ask your federal lawmaker to sign a letter urging Commerce Secretary Wilbur Ross to reach a new softwood lumber trade agreement with Canada.

## MAJOR EVENT SPONSOR

---

The Medina County Home Builders Association would like to take this opportunity to thank each and every one of our sponsors and supporters of the Parade of Homes. Your response continues to be unprecedented and your participation will enable us to promote this event in a way we have only dreamed of over the past few years.

As most of you are aware, there is a lot of activity in Medina County and your support keeps that momentum rolling.

Be sure to take time to visit each of the model homes being

presented. The builders have made a huge commitment themselves to being in this Parade, even some of the homeowners have allowed their homes to be presented as well. The best way we can support them, aside from what all of you have already done, is to tour the homes, tell your friends and neighbors and show your support that way.

We would like to thank all of our Parade Builders as well for continuing to participate in this event that puts our association at the forefront of residential construction in Northeast Ohio.

Participants for this year's spring event include:

### RCAC HEARS FROM STAKEHOLDERS ON PROPOSED ENERGY CODE CHANGES

The energy subcommittee of the Residential Construction Advisory Committee (RCAC) met last week to further consider proposed changes to the IECC. Multiple groups presented information on the potential costs and benefits of updates to the energy code currently under review by the committee. OHBA members provided the subcommittee with a very detailed review of the cost of moving ahead with the 2018 IECC, and reiterated how well new homes are being built already under the current code. OHBA discussed the committee's charge in reviewing the codes and the statutory requirements the committee must consider when initiating any code change, which includes the impact on affordable housing. There were also presentations from MEEA and an energy efficiency consulting/design business. The subcommittee will take this information under review before its next meeting on May 23rd at 8:00am where it will likely make a recommendation to the full RCAC.

### OHBA MEETS WITH SPONSORS OF WATER/SEWER EXTENSION LEGISLATION

Representatives Duffey and Lanese recently introduced HB 602 Water Sewer Service to penalize a municipal corporation for engaging in certain actions related to its provision of water and sewer services outside of its territory by reducing or withholding payments the municipal corporation receives from the Local Government Fund and rendering the municipal corporation ineligible for state water and sewer development funds. Trying to address a concern stemming from the treatment of some surrounding areas around Columbus, the central Ohio legislators assured OHBA it is not their intent to negatively impact residential development. There have been some concerns raised on the legislation's impact on the extension of water and sewer to future developments, and OHBA will continue to engage the sponsors on any potential concern.

If you have any questions or concerns, feel free to contact OHBA.

### HB 371 STILL AWAITING HOUSE VOTE

The House is scheduled to meet only a few more times after the primary this week before they break for summer recess. The legislation modifying the way undeveloped residential property is taxed is still awaiting a vote by the full house. There are many factors to attribute to HB 371 being stalled after an affirmative vote out of committee: local government opposition, a divided caucus, as well as, some lingering misunderstanding on the impacts of the bill. Both the sponsor, Rep. Merrin and OHBA continue to work on getting a floor vote on HB 371, but it is an uphill battle.

We are here to assist you with your residential, land and new construction closing, and title insurance needs.
