I. Introduction

Daslos Studios proudly announces the release of the first tools of its new School Management System (SMS). Schools are one of the most important tools to ensure a strong future for the upcoming generations and we are here to do our part to help with their enormous task.

The SMS system was designed in order to offer schools a robust and highly expandable online platform for organization at a fraction of the cost of the competition. Schools have an enormous amount of data from student and parent contact information, to grade and class schedules. SMS was designed to allow this data to be stored online securely.

Searching for contacts in the different categories is easier than ever before with the upgraded search tools within the SMS system. Making updates is just a quick click, and since SMS is an online tool, updates can be done from anywhere.

There are several add-on suites being offered which are built upon the SMS system including Homework Central, Hot Lunch, and E-Mail Blast. Each of these tools works with SMS seamlessly and allows the SMS system to help in other key organizational ways.

Please take some time to learn more about the School Management System and the add-on suites and how they might help your school.

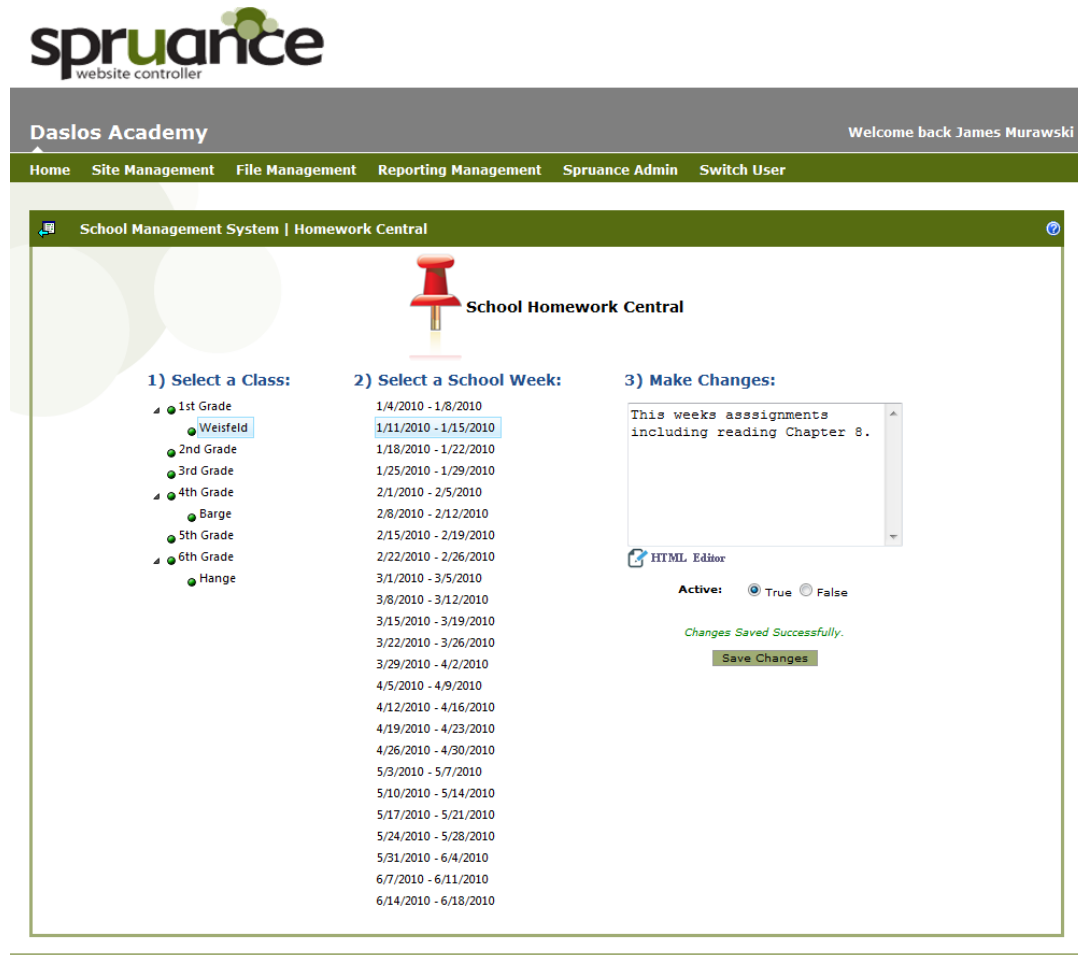

II. Homework Central Add-on

The Homework Central add-on for the School Management System is a very intuitive and user friendly online medium for teachers, students, and parents. Simply put, this add-on just allows each class to easily post text, photos, or other media online each week of the school year. Material from past weeks are not discarded, rather stay online in the system until the next school year.

Now with Homework Central and the other add-on suites, there are two parts to these. The public facing interface and the administrative Spruance interface. Let's start with the administrative interface and how your teachers will enter their information.

Teachers enter content using a user friendly interface found inside the Spruance Web Controller. Using their own login to the site, they simply select their class and the week they want, and they can start typing.

School Management System | Homework Central

School Homework Central

1) Select a Class:

- ▲ 1st Grade
 - Weisfeld
- 2nd Grade
- 3rd Grade
- ▲ 4th Grade
 - Barge
 - 5th Grade
 - ▲ 6th Grade
 - Hange

2) Select a School Week:

- 1/4/2010 - 1/8/2010
- 1/11/2010 - 1/15/2010
- 1/18/2010 - 1/22/2010
- 1/25/2010 - 1/29/2010
- 2/1/2010 - 2/5/2010
- 2/8/2010 - 2/12/2010
- 2/15/2010 - 2/19/2010
- 2/22/2010 - 2/26/2010
- 3/1/2010 - 3/5/2010
- 3/8/2010 - 3/12/2010
- 3/15/2010 - 3/19/2010
- 3/22/2010 - 3/26/2010
- 3/29/2010 - 4/2/2010
- 4/5/2010 - 4/9/2010
- 4/12/2010 - 4/16/2010
- 4/19/2010 - 4/23/2010
- 4/26/2010 - 4/30/2010
- 5/3/2010 - 5/7/2010
- 5/10/2010 - 5/14/2010
- 5/17/2010 - 5/21/2010
- 5/24/2010 - 5/28/2010
- 5/31/2010 - 6/4/2010
- 6/7/2010 - 6/11/2010
- 6/14/2010 - 6/18/2010

3) Make Changes:

This weeks assignments including reading Chapter 8.

HTML Editor

Active: True False

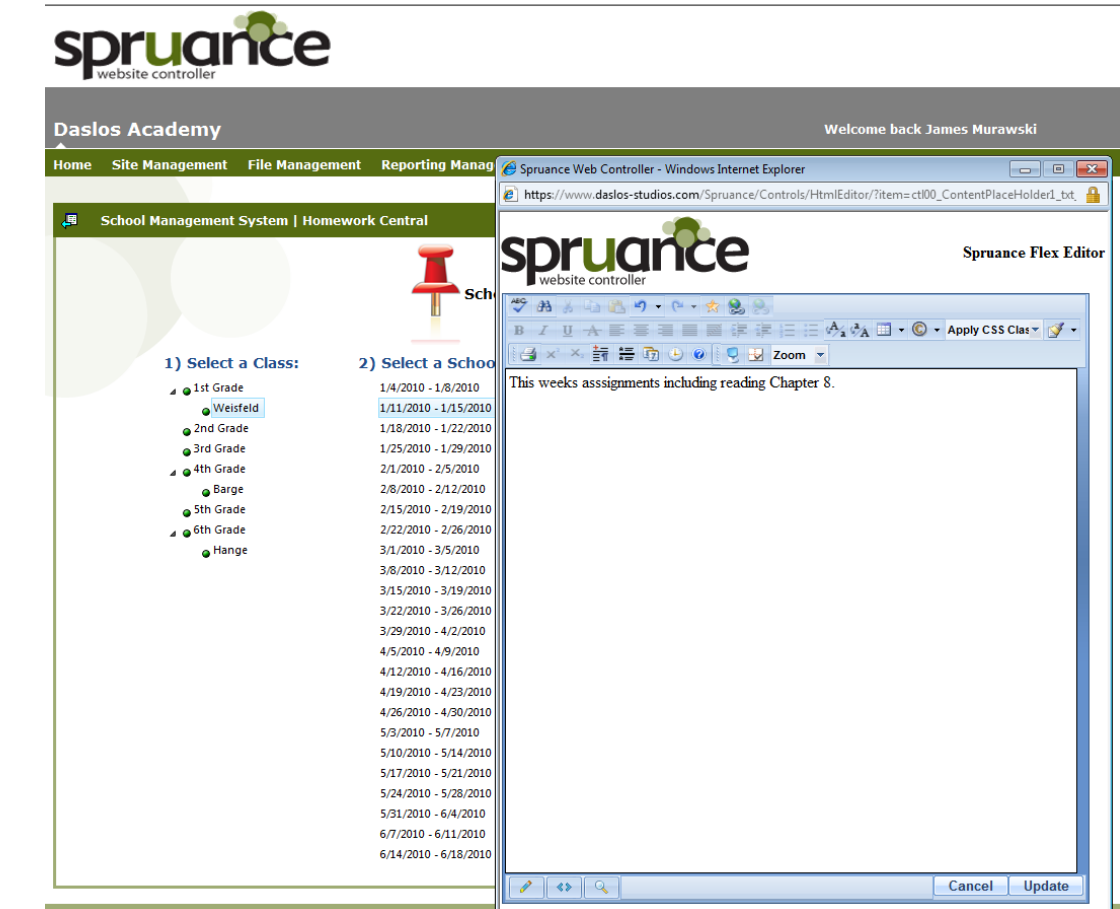

Changes Saved Successfully.

Save Changes

Within this Spruance interface you will notice the classes organized by grade on the left side of the screen. Once a class and week are selected the textbox editor will appear allowing the teacher to edit their information.

- 1) Select a Class:
- 1st Grade
 - Weisfeld
 - 2nd Grade
 - 3rd Grade
 - 4th Grade
 - Barge
 - 5th Grade
 - 6th Grade
 - Hange

Teachers will be able to work within this Spruance interface just like Microsoft Word by clicking on the HTML Editor button found just beneath the large textbox. This will open a popup window with a larger and more familiar interface than the raw HTML that will appear in the large textbox.

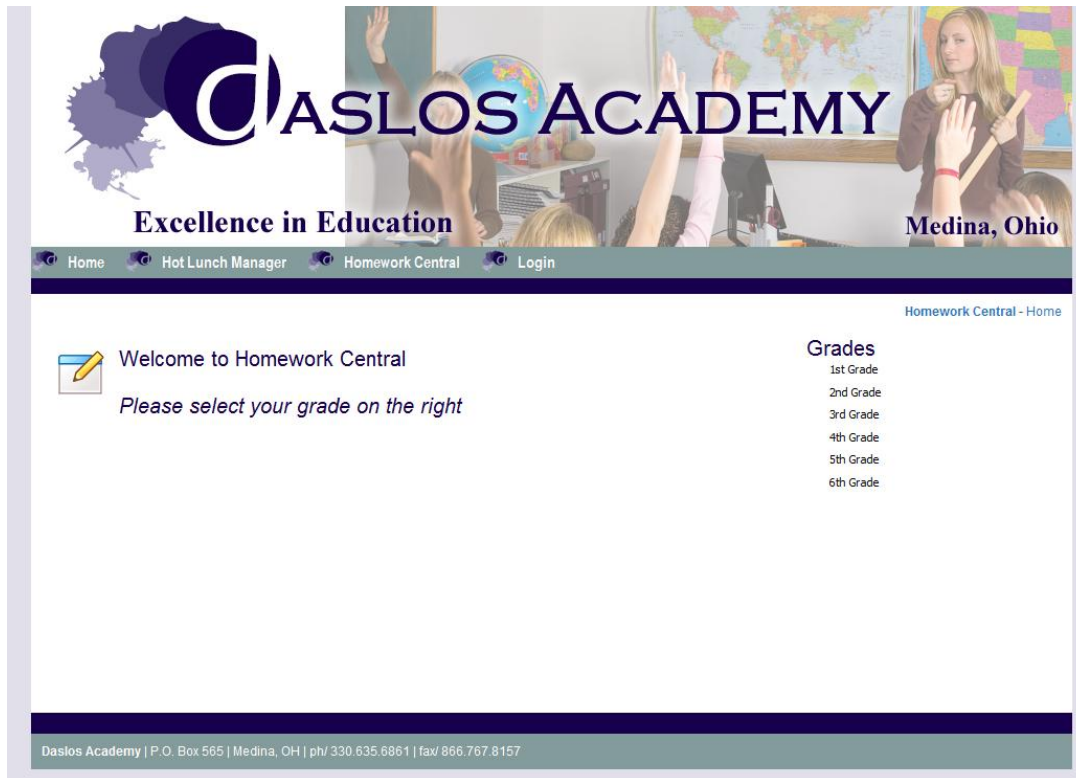

The screenshot shows the Spruance website controller interface. On the left, there is a navigation menu with options like Home, Site Management, File Management, and Reporting Manager. Below this, there is a section titled "School Management System | Homework Central" with a red pushpin icon. The main content area is divided into two columns:

- 1) Select a Class:** A list of grades from 1st to 6th, with "Weisfeld" selected under 1st Grade.
- 2) Select a School:** A list of dates representing weeks, ranging from 1/4/2010 to 6/14/2010.

On the right side of the interface, there is a "Spruance Flex Editor" window. It has a toolbar with various editing tools and a large text area containing the text: "This weeks assignments including reading Chapter 8." At the bottom of the editor window, there are "Cancel" and "Update" buttons.

The flipside to the Homework Central add-on is your student and parent experience on the public facing site. Using our demo Daslos Academy website we will step you through their simple to use interface.

The first step a user will be prompted to make will be selecting their grade from the list on the right. As always, these lists and options are completely based on your setup for the currently set active school year.

After selecting a grade, the user will be prompted to click on a class from within that grade. In our demo we selected first grade, which now displays the list of classes within.

P.O. Box 565

INFO@DASLOS-STUDIOS.COM

When a user clicks on their class, they are immediately shown the current week's assignments as well as a list of the other past weeks. Users will only be shown the current and past weeks, allowing teachers to plan ahead and fill out their homework central content as early as they want.

1st Grade - Homework Central - Home

 **T. Weisfeld 1st Grade**

Homework the week of 1/11/2010 - 1/15/2010
This weeks assignments including reading Chapter 8.

Weeks
[1/11/2010 - 1/15/2010](#)
[1/4/2010 - 1/8/2010](#)

[Back](#)

By clicking on any of the weeks listed on the right, the screen immediately loads the content for the selected week.

The Homework Central add-on is really that simple. Of course your teachers will be able to easily include photos, multimedia, and other documents on their pages as needed. There really is no limit as to what a teacher can use this important tool for and how helpful it will become for the class.
